RE: Transfer forms for Beryl 1, S/023/018, from Sprunger's Minerals to Gemstone Mining (GMI) and for Cubical 7, S/023/017, from Sprunger's Minerals to Utah Mineral & Fossil (UMF).

Dear Mr. Munson:

We received your letter of 6/9/99 and were surprised that you did not yet receive the transfer form for Beryl 1 from GMI. This form was mailed to Clint Christiansen of GMI in Cedar City many months ago and he was to return it to you. We are mailing a substitute transfer form to the law office which represents GMI with a cover letter (copy enclosed). Also, since you are a business associate of John Holfert, you are probably aware that we recently transferred ownership of Cubical 7 to UMF. So we are mailing a transfer form to UMF as well (cover letter to Walter Mroch enclosed).

In your letter you state that if you do not receive completed transfer forms before the end of June, we will be responsible for the 1999 permit fees. This is unreasonable as we cannot force the transferees to return the forms to you, especially on such short notice. We can only prove to you that we did our part and this is why we enclose copies of the two aforementioned letters.

Sincerely,

Mike Sprunger

Walter Mroch
Utah Mineral and Fossil
4141 Ball Road #373
Cypress, CA 90630

Dear Walter:

Regarding our recent transfer of ownership of Cubical 7 to UMFI, Utah requires that a transfer form (enclosed) be completed and returned to the Utah Division of Oil, Gas and Mining at the address on the form. Please send your original to Tom Munson of that division and a copy to me for my records. Tom Munson needs the completed form before the end of June when permit fee statements will be mailed out to claimants. Thanks.

Sincerely,

Mike Sprunger
